

CONDITION/GRADING GUIDE

NEAR MINT (NM)

Cards in Near Mint (NM) condition show minimal wear from shuffling, play or handling and can have a nearly unmarked surface, crisp corners and unblemished edges outside of a few slight flaws. A Near Mint card may have slight edge wear or a scratch or three, but overall look nearly unplayed with no major defects.

The acceptable range of cards within the Near Mint condition includes both cards with no imperfections and cards with a few slight imperfections.

NOTE: Older cards are rarely ever in NM condition due to natural wear over time. Cards that you have not played with, left in sleeves/binders for long periods of time, or are pack fresh can still be in worse than NM condition.

LIGHTLY PLAYED (LP)

Cards in Lightly Played (LP) condition may have minor border or corner wear, scuffs or scratches. There are no major defects such as grime, bends or issues with the structural integrity of the card. Noticeable imperfections are okay, but none should be too severe or at too high a volume.

The acceptable range of cards within the Lightly Played condition includes both cards with few or a handful of minor imperfections.

MODERATELY PLAYED (MP)

Cards in Moderately Played condition can have a moderate amount of border and corner wear, scratching or scuffing, slight creases, whitening, or any moderate combination of these flaws.

A Moderately Played card may have some form of imperfection impacting a small area of the card from mishandling or poor storage, such as creasing that doesn't affect card integrity, in combination with other issues such as scratches, scuffs, or border/edge wear.

HEAVILY PLAYED (HP)

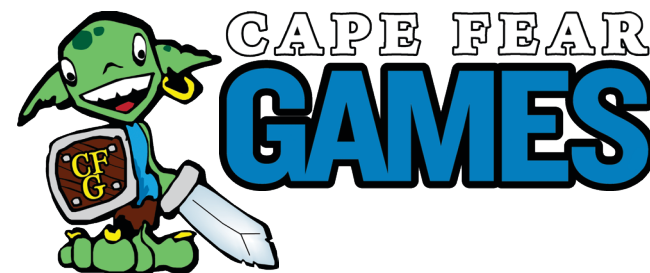

Cards in Heavily Played (HP) condition show a major amount of wear. Cards can show a variety of moderate imperfections along with creasing, whitening and bends. Heavily Played cards can also have flaws that impact the integrity of the card, but the card can still be sleeve playable.

DAMAGED (DMG)

Damaged Cards show wear or imperfections beyond the standards for other conditions or exhibit an imperfection that may make the card illegal for tournament play, even in a sleeve. These cards may have major border and corner wear, scratching or scuffing, as well as folds, creases, small tears, or other damage that impacts the structural integrity of the card.

NOTE: No one likes to receive a card that is covered in a foreign substance, such as food, liquid, or other material. Cape Fear Games does not accept cards like this.

STEP 4 SUBMITTING YOUR BUYLIST

Look over and verify all your your info before submitting your buylist. Make sure both your payment method and any extra payment addresses are correct. Also make sure you are logged in correctly and are not using someone elses account.

Submit Buylist

Finally, click "Submit Buylist" at the bottom to complete your buylist submission, and let the front desk know that you have a buylist ready and submitted.

STEP 5 GRADING AND PAYMENT

After we have received the buylist, we will begin grading it. If you would like to see our grading scale, it is listed on the other side of this brochure or, for better examples, please visit our website at capefearegames.com/condition_guide.

NOTE: The initial value of your buylist is **NOT** a quote! Prices update depending on the grade received. If there is a significant change in the total due to either incorrectly added cards or played condition cards, we will confirm the amount with you before paying it out.

Be aware, some cards have a more drastic price change between each condition and edition because of losing collectability. For example :

Dark Tyranitar 1st Edition

- NM - \$220
- LP - \$135
- MP - \$110
- HP - \$70
- DMG - \$60

Dark Tyranitar Unlimited Edition

- NM - \$60
- LP - \$40
- MP - \$25
- HP - \$14
- DMG - \$11

After grading is finished, you will receive an email notifying you that the buylist has been completed and is ready to be paid out. If you are waiting in-store, our front staff will let you know when it is completed.
